Flyers Score But That's All

SCORING SECOND Flyer goal Doug Anderson (12), right, drove 10-foot backhandler to strings in third period. Stamper goalkeeper Russ Dertell is sprawled

on ice after vainly trying to block shot. Calgary winger Bummy Dean arrives on scene just in time to fish puck from net. That's referee the Morrison in background.

Dishonest Brokers Still Flourish In Ontario

By C. W. Myers

Bulletin Of Editors

Dominion postal authorities have denied the use of the mail to a list of eastern brokers on the grounds that their advertising literature may contain misrepresentation.

While the names of the brokers have not been published, one may expect J. B. Scott and Company, Capital Petroleum, Mammoth Petroleum and A. N. Richmond will be included in this list. This group has been putting out some of the rankiest advertising to come to pollute the good name of responsible oil companies and reputable brokers.

FULL PAGE ADS
Full page ads in the Northern Miner have dropped Capital Petroleum stock as a sure bet. Only one mile away from Yeakey discovery, says one ad, declaring this could mean a parallel achievement resembling Yeakey.

The ad does not mention that one-quarter mile north of Yeakey the dry hole led R. W. The ad represents the distance between the two wells, which is closer to two miles than the ad. The ad fails to mention that the quarter section on which this well has been drilled was long ago knocked out of the running by dry hole Devon No. 1. The ad forgets to mention that the quarter adjoining to whom was found dry by Calmont Leakey No. 2. The ad does not bother to inform that the Globe Leakey West producers on the quarter to the south found the D-3 well low and dropping off fast.

On the contrary, the ad lies up Capital Mammoth No. 1 with Yeakey, reports a big spread from the Edmonton Bulletin about the Yeakey producer and little people getting in on the big oil boom.

A. N. Richmond of Toronto takes up the torch for Mammoth Petroleum. Petro-ventures are flooded with literature and a cleverly thought-out follow-up program. The literature shows flowing and burning oil wells which are not identified but they are in the Mammoth literature and the inference is that they must certainly have something to do with his company.

FIRST OF 500 SITES
Prospective "suckers" are told the company's first well has been successfully completed and all that is left is to get in on the sucker well by lucky if he will be able to get in on it.

And all this time Capital Mammoth No. 1 is a gone goose about a mile, located on a site which has already been discovered, a reputable geologist would even recommend a site no practical oil man would even consider.

KEEP PEDDLING
In other words the promoters, if showed with a grain of sense, the well would probably be a dry hole before they ever sold a share of the well. The proof of this is as Thursday last they ever sold a share of the well was certainly downed and below the water line, citizens in Minneapolis were receiving telephone calls urging them to get in quick before they missed their chance.

Now then, some Toronto brokers have been refused the use of the mail. This is a man in either honest or he is dishonest. To deny him the use of the mail is to say he is dishonest. He is not in jail.

These brokers still have their licenses, offices and the money of the honest people who believed them.

BRING BIG CUP

Mercurys Board Ship En Route Back Home

LIVERPOOL, England, March 28.—(CP)—Cascades officers bid the triumphant Edmonton Mercurys a gallant bon voyage today.

After an understanding which at British regulations, customs authorities allowed the new world amateur hockey champions to sail for Canada with a normally forbidden "export"—the two-foot silver cup the Mercurys won in the two-week world tournament at London.

"British hospitality has been wonderful," grinned Coach Jimmy Graham on board the liner Empress of France, "but that was the nicest touch of all."

"When we got here, we found we had no permit to take the cup with us. But the customs chief showed the world hockey champions and as a result we are taking the cup back to Canada."

Seventeen members of the championship team sailed with Graham, prepared for full-dress receptions in Ottawa and later at Edmonton.

Another \$500-plus crowd jammed the ship's deck last night. The team was in the main hope that their "twelve" would make a semi-finals for the pair of brackets suffered in Calgary last week.

But it wasn't to be. Sparked by Stan Devlin, who pounded home a pair of goals, the team lost 2-0 in the first round. The team had scored in less than three minutes of play and never were headed.

Salient Points In Budget

Budget provides no change in taxes on personal incomes, liquor, tobacco, cosmetics or succession duties.

Eighty-percent sales tax dropped on ice cream, dairy drinks, and prepared whipping cream, effective immediately.

Eighty-percent, sales tax also dropped on purchases by orphanages and institutions for the aged and infirm—effective July 1, 1950.

Five-percent excise tax on toilet soap dropped—effective immediately.

Minor and technical changes proposed in tariff schedules—effective March 29, 1950.

Increase from free to 15 per cent in British preferential tariff on tin plate—effective June 1, 1950.

No tax on capital gains.

Farmers and fishermen permitted option of two depreciation methods for tax purposes.

Effects of tax reductions for small businesses widened—retroactive to Jan. 1, 1949.

Tax exemptions on oil and mining exploration expenses continued for additional year.

New system of taxing incorporated surplus of family corporations announced.

Surplus for 1950-51 expected to be \$20,000,000 compared with \$11,000,000 in 1949-50.

Spark Gone As Flyers Lose Again

Calgary Wins 4-2 To Lead Playoff For First Time

By STAN MOHR Sports Editor

Lost: one spark, property of Edmonton Flyers, some-thing that had been early today when they destroyed their home at Leveque Settlement, eight miles from this western New Brunswick town.

Murphy, one, Roger, two, and Leo, three, the sons and daughter of Mr. and Mrs. Wilfred Ashlin.

THREE KILLED
GRAND FALLS, N.B., March 28.—(CP)—Three small children died of burns early today when fire destroyed their home at Leveque Settlement, eight miles from this western New Brunswick town.

SALES TAX
FREDRICKTOWN, N.B., March 28.—(BUP)—Introduction of a four percent sales tax was announced today by provincial secretary-treasurer J. G. Boucher in his budget address to the legislature.

PURGE DEMANDED
LONDON, March 28.—(UPI)—Lord Salisbury, former foreign office undersecretary, said today the British civil service and the British Broadcasting Corporation were ridden by a "whole host" of Communists.

He demanded a purge.

Late News Flashes

League President Announces Finding

DETROIT, March 28.—(AP)—President Clarence Campbell of the National Hockey league told hockey writers today his investigation showed that no Toronto player was to blame for the mishap in last night's Toronto-Detroit play-off clash that resulted in a serious brain injury to Red Wing Gordie Howe.

Howe was hurt in a crash into the boards in the last period of the game Toronto won 5-0. Conscious but weak, he was recovering in Harper Hospital today from an emergency operation to relieve a serious brain concussion.

In what was believed the first press conference an NHL president ever called to discuss such an injury to a player, Campbell sharply criticized Detroit coach Tommy Ivan for reportedly claiming after the game that Howe was struck with the end of Toronto captain Ted (Teefee) Kennedy's stick.

"That is a pretty serious business and a very vicious charge," Campbell said. "I assume it was made in a fit of anger after the game, because we all get pretty excited at times like that."

Campbell made a rough division of the play, saying that Kennedy had been in the center of the play, and that he was not in a position to have struck Howe with the butt of his stick.

Campbell said that on the play in question Jack Stewart of the Red Wings had been checked by Kennedy, who carried the puck to the center line, near the Detroit bench.

READS REPORT
Reading from the report of an official, Campbell recalled that "I turned to follow the play and Stewart was trying to backcheck Kennedy, who was close to him just as Kennedy carried the puck to the center line. Stewart was in the play and he was not in a position to have struck Howe with the butt of his stick."

Just before Howe got to him, Kennedy passed the puck back-handed. Howe brushed Kennedy slightly, crashed heavily into the fence and fell to the ice. Stewart was over on top of him and the play continued."

Campbell said the referee George G. Lindsay, Sam Haskins, and Stanley-Byrd (Hutch) Keating all agreed pretty generally that the way the play went was the way it went.

The other lineman, Ernie LeMatre, said he was on the opposite side of the rink and didn't see it.

Gold Hunters' Hopes Raised
GLASGOW, Scotland, March 28.—(UPI)—Navy divers planned to use new instruments to inspect an "object" which they believe may be a golden-legend Spanish galleon that sank 160 years ago.

It, Cmdr. Ray Parkinson, chief of a navy diving team, said one of his divers hit a "solid object" beneath all under 60 feet of water. He said other divers would go down when weather permitted to determine the size of the object.

The navy has been seeking the galleon for three weeks, using a high pressure water jet to cut through the mud.

Last AP Writer Expelled By Czechs
PRAGUE, March 28.—(AP)—The Czechoslovakian government today ordered the expulsion of the last American newsman from the country. It refused to renew the license of the Associated Press, which expires March 31.

The government said the reason for the expulsion was the reason for the expulsion.

DETWEILER PLAN APPROVED IN PRINCIPLE BY HOUSE
An elective body should have the final say.

Stormy, prolonged debate ruled out returning any tentative agreement between the city and the representatives, that the committee had already given city council a "large interest" when it made a deal with the city.

Commissioner John Hodgson pointed out in response to a barrage of questions from committee members and property owners' representatives, that the committee had already given city council a "large interest" when it made a deal with the city.

CANT BOOST TAXES
The Detroit project cannot possibly increase Detroit's mill rate, and might even decrease it if the city 20 percent of net revenue exceeds \$250,000 per year, said Mr. Hodgson.

STORMY DEBATE
The legislature's municipal law committee held with Attorney-General James Macdonald and a group of city commissioners should not have any power in the matter, but that

Teams Argue How Howe Was Injured

DETROIT, March 28.—(CP)—Young Gordie Howe of Saskatoon, star winger of the champion Detroit Red Wings, was believed to be out of danger today after undergoing an early morning brain surgery to relieve a severe injury suffered last night in a Stanley Cup playoff game.

Examination showed Howe also suffered a fractured nose and lacerations to the jaw.

Howe drew a major for fighting after the game, but he was not in danger of being ejected after early morning brain surgery to relieve a severe injury suffered last night in a Stanley Cup playoff game.

Full House But No Joy

Five dancing girls in Tokyo's "new look strip show" almost tannously "heat" their brausers. The next night they played to a packed house.

But fans were disappointed. Police warned that the girls would not happen twice in the same five places.

Frank Skobern, of New York, is village building inspector. He's also president of the "cotton boys' club" and the situation can be confusing.

As head of the boys' club, he endorsed plans to build an addition to the clubhouse.

As building inspector, he rejected the plans on the ground they violated zoning regulations.

Now, as boys' club president, he's asking the village zoning board to reverse the ruling he made as building inspector.

Any of you guys like a low-cut, double-breasted waistcoat in yellow linen, with eight gold buttons? How about a garnet-colored jacket?

You can get them from tailor Carlos Welterman, in Paris, who has a style show to introduce his latest warred wardrobe. Some 300 admirers, both men and women, crowded to see it, its salons on the style-conscious Rue de Valenciennes St. Honoré.

No one but the models—young drama school students—really liked this stuff much, but it looks pretty anyway.

The Netherlands has accepted "with great gratitude" an offer by Canada to give members of the Dutch forces a free training course in modern warfare methods.

The 14-year-old son of the late screen star Richard Dix was enrolled in his Los Angeles home today under escort of a juvenile officer after police picked him up on a runaway in Wall Street.

Richard Dix, Jr., and William Strickland, Jr. were taken into custody yesterday. Dix was a member of military school and he was "wanted to see how the other half of the world lived."

The boy had been a student at North Hollywood Academy in North Hollywood, Calif.

Premier Brown Johnson of B.C. today turned his back on a letter pay envelope.

The premier turned thumbs down on any salary increases either for himself or for cabinet ministers. He said no matter how deserving ministers might be it "would not be wise" to raise their salaries now.

Private coalition members wanted the premier's salary raised from \$2,000 to \$2,500. They also sought to have a cabinet minister's salary boosted from \$1,500 to \$2,000.

Cortisone, the wonder hormone, is worth 100 times its weight in gold.

An ounce of gold sells for \$33. If you can get it.

An ounce of cortisone costs \$3,500 in New York, and the demand is increasing. It's because medical scientists discover its effectiveness against disease.

Cortisone, now made synthetically to a degree, originally cost \$200 a gram, then \$75 and now \$135. More reductions undoubtedly will be made when a complete synthesis is completed.

Prague police have arrested Rev. John Evangelista, one of the church's most prominent spokesmen in Czechoslovakia, the Vatican radio said today. Father Urban was described as a noted writer, lecturer and radio speaker and founder of the Franciscan Studio of Christ in Prague.

Dolly, the circus elephant, was exhibited at dawn today in Sarasota, Florida. The animal was sent to death with cyanide for killing a five-year-old Edward Schooley who was feeding her peanuts last Sunday.

Windsors Plan Alberta Visit

LONDON, March 29.—(CP)—A. W. Windsor, secretary to the Duke of Windsor, left London for Canada today and the Evening Standard reported he was going to arrange a "business only" visit by the Duke to the Alberta ranch.

Windsor was scheduled to sail from Liverpool tonight for Halifax aboard the liner Empress of France. The Standard quoted him as saying the Duke and Duchess, now vacationing at Palm Beach, Fla., would leave shortly for "E.P." Ranch, near Pokok in the High River district, about 60 miles south of Calgary.

Two Taylors Star In Empress Feature

A new high in emotional romantic drama is reached by MGM in its presentation of "Conspirator."

Starring Robert Taylor and Elizabeth Taylor, the film is the story of a lovely young American girl who, on a visit to England, marries a romantic officer of the Royal Flying Corps.

She finds her marriage slipping and her husband gradually growing away from her. Finally she discovers the shocking reason for their breakup—a discovery which determines her husband to kill her.

The Richard Todd play to New York April 9 and will be in London April 14. The actor expects to be back here early in 1951. Next time he'll rent a house instead of staying at a hotel, as he did this trip.

Quits Price Board

OTTAWA, March 29.—(CP)—William T. Wilson of Ottawa, deputy-chairman of the price board, is resigning March 31, it was announced today.

Mr. Wilson joined the board in January, 1946 as controller, and became deputy-chairman in March 1947.

PAID ROSES

The "paid roses" were "smashed" today. There now was no election in the offering and the government's story was that "we are just scrapping sales." The opposition had not expected cuts now.

Mr. Abbott said his new tax concessions—those for toilet soap, oranges and ice cream and dairy products—would bring a tax loss of not more than \$2,000,000. He hoped to recoup "at least" that amount through the arrangement for family corporations.

This arrangement, which Mr. Abbott conceded was complicated to summarize fully, is aimed at encouraging family corporations to pay "reasonable" dividends while making it possible for them to hold on to profits essential for their growth without imposing heavy potential tax burdens on shareholders.

Briefly, the government's formula is for a 15-per-cent tax rate on surpluses currently would bring a tax loss of not more than \$2,000,000. He hoped to recoup "at least" that amount through the arrangement for family corporations.

Inside Hollywood

HOLLYWOOD, (AP)—If you want to train for rock chopper Doris Day.

An ark chopper is a job who sits in an evening gown before a dance band, smiling all the while. Every 15 minutes or so, she rises from her perch and chirps with the orchestra. Miss Day looks back on the experience with thankfulness.

"Singing with a band helps develop your personality," she explained. "It's a lot more fun than being alone." "Look at the girls who used to do it—Betty Grable, Gene Haver, Betty Hutton, Gloria DeHaven. The way you interpret the lyrics is a lot to do. You're not just singing words, you're trying to put meaning into them." She added that singing with bands gives a girl practice. "I'm never nervous before the camera," she said.

MELON IN 1949 LEMON IN 1950

Exclusive To The Bulletin

OTTAWA, March 29.—(BUP)—Finance Minister Abbott's budget was criticized today by J. M. Macdonald, Progressive Conservative for Toronto-Broadview. He said: "The government will not be in the pre-election budget last spring. But there is no reason in the lemon we have tonight."

Edmonton Buyer Loses His Appeal

CALGARY, March 29.—(BUP)—An Edmonton man lost an appeal in Calgary against a decision of Mr. Justice H. J. MacDonald.

James C. Meyer appealed against a decision which ordered him to continue payments on a machine which he had bought from Matt Schatz, of Bow Island, which, he claimed was not complete. He said one piece of the concrete block-making machine was missing.

Butter At 58

OTTAWA, March 29.—(CP)—Agriculture Minister Gardiner told Commons yesterday the government's current support price for butter of 58 cents a pound will continue to be paid until the end of April.

Quits Price Board

OTTAWA, March 29.—(CP)—William T. Wilson of Ottawa, deputy-chairman of the price board, is resigning March 31, it was announced today.

"... MAYBE it's because we've been waiting for it every other day!"

Margaret Puffs

Fag At Function

WARRENTOON, Lancashire, England, March 29.—(AP)—Princess Margaret smoked an afternoon cigarette yesterday and set a new precedent.

The occasion was a reception by Mayor W. Higham at WarrenTOON Hall. It was the first time the lovely, 19-year-old princess had lighted up at an official function, although she has smoked in public before.

Princess Margaret puffed from a silver cigarette holder.

Crash In Japan

NAOGYA, Japan, March 29.—(AP)—A U.S. Air Force C-47 crashed and burned last night in the vicinity of Naogya, Japan, 25 miles east of here. Three of the crew members aboard were killed. The twin-engine transport carried no passengers.

Survivor Relates Events of Crash

OTTAWA, March 29.—(CP)—The lone survivor said today flames raced so swiftly through a United States Air Force plane early yesterday there wasn't time for any more of the six occupants to bail out as he did.

"Four of them had their parachutes open and they were in the air when the plane crashed," Long told reporters today in describing the crash that took five lives, including that of U.S. Ambassador Laurence Steinhardt, 11 miles south of here.

"They didn't get out. There wasn't time for them to try. I had told them to bail out but something happened. They didn't make it. There wasn't time. Everything happened very fast."

"Long lying in a hospital bed, told a press conference of a spontaneous, gripping inference that the crash, to get his 'chute out. There was no talking that I can remember. I don't know if they had their parachutes on but the ambassador did."

"Everybody had a parachute. Col. Truesdell's parachute was laid out for him so he could grab it on the way out. He had been planning to head her steady until we got out, then he would make a run for it."

Court Honors Record Of Retiring Magistrate

They reviewed retiring Magistrate A. I. Miller's "record book of memories" in police court today.

Alberta Leading In Apprentices

Alberta is training more apprentices than any other western province, Ross Field, superintendent of training, department of labor, said in Edmonton today.

Praising the Alberta organization, the Ottawa official said 2,000 apprentices are registered or indicated with firms at the present time. Seventy-five per cent of these men trained this year.

"This is certainly to have a very beneficial effect on the standard of labor which can be expected from Alberta workers," he said.

Special praise went to J. P. Miller, director of the provincial apprenticeship board.

Training in Alberta covers all standard trades, including auto body work, carpentry, painting, gas fitting, motor mechanics and electrical training.

Friday Parade

Number 36, Casualty Clearing Station will parade at 8 p.m. Friday, in the city of Waverly, Alberta.

The parade will be held on the main road, with a band and a float.

SERVICES COST MONEY

Canadian can look forward to disappointing 1960-61 budgets for a long time to come.

That's the way Dr. Andrew Brewster, speaker of the House of Commons, said in the House today.

"People generally are demanding more and more services from the government," he said.

On the whole, the budget doesn't look too tough, he commented.

Civil Servants Donate \$15,000

Alberta civil servants have presented the Red Cross with a cheque for \$15,000 in support of the current campaign.

Presentation was made by H. C. French, president of Alberta Civil Servants' Association to Walter Blake, Edmonton Red Cross chairman.

Red Cross headquarters in Edmonton was asked to allocate the grant proportionately to the districts in which it was raised.

The total contributed by Red Cross by Alberta civil servants during the past 10 years is \$10,000.

Of \$8,253 of this year's grant was contributed by Edmonton government employees.

Dutch Settlement Success Reviewed

Netherlanders Expect More Countrymen Here This Week

More than a score of sturdy Netherlanders will arrive in Edmonton sometime this week to seek their destiny on northern Alberta farms.

They are the latest immigrants in a well organized, successful colonization scheme.

An enthusiastic group of Alberta Dutchmen met in Edmonton yesterday to review the annual record of the Netherlands Immigration Society.

The group, which has been active in settling Dutch countrymen on the land, has a long record of success.

Earlier this week, the group met to discuss the progress of the settlement scheme.

Social Agencies Regret Juvenile Training Lack

Edmonton Council of Social Agencies is disappointed in Alberta government's recently announced plan to establish an institution for juvenile offenders.

The council's child and family division reported to the annual meeting yesterday that analysis of the government's plan indicated nothing to justify hope it would be the long awaited training school for juvenile delinquents.

WANT TRAINING SCHOOL

"Instead, it appears to be really a type of penal institution making possible segregation of young adult offenders from the provincial jail population," commented division chairman John DeVin.

"It is regrettable the province could not make a similar investment this year, in well-equipped and staffed training school for young boys," he added.

Facilities for studying juvenile delinquents are also needed, he said, noting that the Oliver Mental Institute was "inadequate for the purpose, since it accommodated only 10 children a year."

ASK PLANS FOR JOBLESS

Mr. DeVin warned that "many children under 14 years of age are not being referred to Oliver will in a few years be the serious delinquents of that day if they continue without skilled attention."

Turning to the problem of the city's seasonal unemployment, Mr. DeVin reported that shelter and accommodation for penniless job hunters is far short of normal minimum requirements for a city of this size.

He predicted that next winter the cold on chudches and other organs for free meals and lodging for single men might be even greater.

Western Lines' Trip Approved

The second American airline's one week to establish terminal connections at Edmonton was officially granted a federal Department of Transport license Tuesday.

Airport manager James Bell reported word had been received of approval of Western Airlines' Great Falls-Edmonton route by the federal government.

Western Airlines can now promise service from here direct to Los Angeles, California, on a service by two hours. Two-engine Convair liners carrying 40 passengers, will start after the inaugural flight around May 1.

School District Retains Old Name

West Jasper Place School District will retain its present name, the board decided Monday night.

The question was settled, chairman J. Shier said, after the board had received an inquiry from the department of education.

Department officials wanted to know if the name of the school district would change when name of West Jasper Place village was altered to Jasper Place.

TAIPEI, Formosa, March 29.—(AP)—Chinese Nationalists said they would not accept the Communist jump route of Shanghai, sinking most of them.

colony members who plan to go to Mexico.

Unconfirmed reports from Southern Alberta say Doukhobors, religious sect established in British Columbia, is negotiating to purchase the Hutterite colony.

Don't suffer from weariness, throbbing, aching, or any other symptoms of rheumatism. Do as thousands of Canadians have done—take T-66.

Take T-66 for effective relief of Rheumatism and Rheumatic pain. 66¢ 12.25 at drug counters.

Removed attempt of Doukhobors to extend their colonies to Alberta may be stopped by a bill now before the Alberta legislature.

The bill, due to receive second reading today, provides that colonies not established in the province before May, 1947, may not acquire Alberta land without the consent of the lieutenant governor in council.

According to legislative rumors it is designed to halt a Doukhobor attempt to buy land in the Macleod area of Southern Alberta.

A Hutterite establishment near Macleod is reported to be up for sale by the religious community.

CANASTA CATASTROPHE

Four Edmonton Canasta enthusiasts nearly fell off their chairs last night when one of them tossed up a score of 640 in a single hand.

Triumphant high score was Mrs. Ed Hutchings, 9406-94 street, who was playing with Mrs. R. Berry, Sr., against her husband and Mrs. Berry's son, 9206-94 street.

Both Canastas came to five natural and three broken.

Truck Travel Ban Extended

Bans on truck traffic already in effect on eight provincial highways will be extended in other areas tomorrow morning on southern roads.

Trucks of over one-ton will be prohibited from travelling the following highways:

Highway 9, Drumheller to Alask; Highway 13, Rocky Mt. House to junction of Highway 2; Highway 2, Compoer to Lacrosse; Highway 2, Lacrosse to Windfall; Highway 2, Windfall to Navis Junction; Highway 27, Oids to Sundre; Highway 30, Leduc to Breton; and Highway 42, Camrose to Bassano.

One-ton vehicles are permitted to travel the foregoing if only half-loaded.

School Spending Up Half Million

School board expenditures for the coming year are estimated at \$2,000,000, an increase of \$450,000 over 1959.

Reest-reassessment of property in Edmonton makes it possible for the school board to obtain the additional income without increase in the present millage, he said.

City school children will get a half-holiday April 6 to permit them to welcome the world champion Mercury hockey team home. Children are expected to flock to the airport in thousands.

Film Depicts War On Cancer

First scientific film depicting the war against cancer, produced through Canadian-U.S. co-operation, was shown in the Civic Recreation Building last night under the chairmanship of deputy health minister Dr. R. M. Bell.

The film, entitled "Challenge-Science Against Cancer," was taken in Toronto and Rochester cancer medical centres.

Canadian-born film star Raymond Massey is narrator.

The film will be shown next in Red Deer and Calgary.

\$11,000,000 Is 1949-50 Surplus

Finance Minister Returns Fourth Surplus In Row

By D'Arcy O'Donnell

OTTAWA, March 29.—(CP)—A 1949-50 budgetary surplus of \$11,000,000—the fourth consecutive surplus since the end of the war—was reported last night by Finance Minister Abbott in his budget speech to the Commons.

The surplus for the fiscal year ending Friday compared with \$885,000,000 in 1948-49, \$703,000,000 in 1947-48 and \$773,000,000 in 1946-47, when a string of deficits extending back to 1930 was broken.

Although 1949-50 accounts have not been closed, Mr. Abbott said it appears that revenues will total \$2,545,000,000 and expenditures \$2,434,000,000.

1950-51 Estimates Fixed

In 1949-50 revenues were \$2,711,400,000 and expenditures \$2,175,000,000. In 1948-49, the net debt, reduced by the amount of the surplus, dropped from \$11,776,100,000 to \$10,676,000,000.

Mr. Abbott's figures were contained in the fiscal portion of his speech, which preceded a section containing proposed tax changes for the coming year.

If no tax changes were made in 1950-51, he estimated revenues would total \$2,438,000,000 and expenditures \$2,438,000,000.

This would leave a budgetary surplus of \$123,000,000 before any

Weekly Wages Up Slightly

It already seems clear that devaluation of the dollar last September has, under present conditions, improved Canada's trading position.

Canada's gold and dollar reserves, at a low of \$461,000,000 in December, 1947, are estimated at \$1,281,000,000 at the close of March 29, an increase of \$87,000,000 in the last quarter alone.

Average weekly wages rose about three per cent during the year while the cost of living advanced "barely" one per cent.

The outlook for 1950 seems to be that the volume of employment will increase moderately, but it is possible it may not catch up with growth in total labor force.

Consensus of informed views about the outlook for 1950 is that

Planning Care Is Urged

It would expect the government to exercise a special responsibility for the promotion and development of basic primary industries and Canadian industries of national significance.

At the outset Mr. Abbott dealt with the question of trade, tracing the rise and fall of exports and imports from various countries.

Canada's exports have fallen from a post-war peak of \$1,320,000,000 in 1946 to \$1,000,000,000 in August, 1949 to about \$1,000,000,000 in the 12-month period ended Feb. 28, 1950.

Canada's imports are running at the rate of about \$1,750,000,000 compared with \$1,500,000,000 in 1946. However, Mr. Abbott said he was not satisfied with the import picture.

He said: "Frankly, we have been disappointed in the apparent inability of overseas countries to resume their traditional share of the Canadian import market during the past year."

Devaluation Has Helped

"In those lines of production where our farmers and fishermen rely primarily on overseas markets, the outlook for 1950 is less certain, but I would like to remind honorable members that our markets on this side of the Atlantic have been expanded in recent years."

He said: "I am sure that the government will be able to arrange to charge the post-offices for accommodation and other services. In turn, the post-office would charge other departments for mail services, now furnished free of charge."

He said: "I am sure that the government will be able to arrange to charge the post-offices for accommodation and other services. In turn, the post-office would charge other departments for mail services, now furnished free of charge."

He said: "I am sure that the government will be able to arrange to charge the post-offices for accommodation and other services. In turn, the post-office would charge other departments for mail services, now furnished free of charge."

He said: "I am sure that the government will be able to arrange to charge the post-offices for accommodation and other services. In turn, the post-office would charge other departments for mail services, now furnished free of charge."

"HERE COMES the gimmick."

"I'VE PRACTICED this routine for years, Mr. Zanuck."

"HOW'S THAT again? I'm afraid I didn't get it."

Abbott Sees No Let Up In Taxes For Years

OTTAWA, March 29.—(CP)—Finance Minister Abbott said last night in his budget speech that federal government expenditures are expected to run at a rate of \$2,400,000,000 for years to come and, as a result, any future tax reductions will be small.

He indicated that if the expenditures are pushed above \$2,400,000,000 the people, at least in the long run, should be prepared to pay for them through increased taxes.

He said special efforts had been made to reduce expenditures in 1949-50. He estimated that 1949-50 expenditures would total \$2,410,000,000 compared with \$2,438,000,000 in 1948-49.

His experience with the planning of expenditures for the coming year had caused him to "realize that we must expect for some time to have budgets as large as in 1949 and due to major economic difficulties or widespread unemployment."

Mr. Abbott reiterated earlier government statements that unemployment during winter months would be a serious problem. He said the government was working to reduce living operations through reducing investments.

Special post-war demobilization and transitional expenditures now were aimed "all behind us." There was a tapering off of payments to veterans. But these reductions were largely offset by increases in other government services required by economic conditions.

"In years when normal conditions are adverse, we must expect to have a large percentage of expenditures to assist in overcoming these economic difficulties and to maintain satisfactory levels of employment and income."

"In good years we can hope to reduce special expenditures and have budgetary revenues—but I doubt if the public or this house of commons will really wish government services or activities to be reduced in years of prosperity to the degree we have seen in recent years."

"We get a substantial improvement in the international situation when a reduction in defense costs that will materially lighten the burden on the budget is possible for 1950 is less certain, but I would like to remind honorable members that our markets on this side of the Atlantic have been expanded in recent years."

He said: "I am sure that the government will be able to arrange to charge the post-offices for accommodation and other services. In turn, the post-office would charge other departments for mail services, now furnished free of charge."

He said: "I am sure that the government will be able to arrange to charge the post-offices for accommodation and other services. In turn, the post-office would charge other departments for mail services, now furnished free of charge."

BOND SALE GETS GOOD RESPONSE

OTTAWA, March 29.—(CP)—Approximately 1,000,000 buyers purchased \$204,000,000 worth of the fourth series of Canada savings bonds introduced last fall. Finance Minister Abbott said in the fiscal portion of his budget speech.

"The campaign 'highly successful,' he extended a tribute to the 'genuine' work done by voluntary and professional workers in promoting the sale of the bonds."

"We have heavy continuing charge for pensions and other provisions for war veterans, and expenditures on defense now total \$125,000,000. All told, then, we must provide something over \$1,000,000,000 a year because of the need to prevent future war."

"This huge outlay from which we get no tangible return is unfortunate but let us remember that this, in addition to the blood and treasure expended in the past, is the price we pay for the freedom, the civil liberties, the democratic politics and the economic prosperity which we enjoy as part of the Western World."

"NONE TOO EASY" If expenditures were going to continue at the rate of \$2,400,000,000 a year, then the government had to have a tax system that would at least balance the budget in good years.

"The conclusion... I reach is that no minister of finance in the foreseeable future will have an easier task than I have, namely, that of covering about \$2,400,000,000 of expenditure, said Mr. Abbott.

"In considering proposals for future major increases in our expenditures of a continuing nature, we must be ready to balance them with increased taxes. We can afford some modest increases in expenditures from year to year, or even some modest reductions in taxation, as our productivity and national income fluctuate."

"MUST BE REDUCED" But this divided of progress is gradual and modest in size in relation to the ambitious plans that are so much in the air these days. "What is important, I believe, is that we now realize clearly that there is no prospective surplus from which proposed new programs can be financed as much as we have in the past."

"If the expenditure is worthwhile it should be provided for by new or increased taxes or by reduction of some services or activities of lower priority."

Abbott Sees Price Drop

OTTAWA, March 29.—(CP)—A forecast of a slight drop in prices and a small rise in employment this year was contained in Finance Minister Abbott's budget speech.

"The consensus of informed views about the outlook for 1950 is that employment, output and price levels in 1948 and Canada and the United States will show no great change from 1949."

"The balance of probabilities for Canada indicates a moderate increase in the domestic and United States demand for our products, offset in part by a reduction in overseas demands, with prices tending slightly upward."

He estimated that the gross national product, which includes private, corporate and individual income, would be about one per cent higher than in 1949.

"Devaluation Is Hailed As Boon To Trade Here"

OTTAWA, March 29.—(CP)—Devaluation of the Canadian dollar last September, under conditions at present prevailing, has improved Canada's trading position, Finance Minister Abbott said in the fiscal portion of his budget speech.

He felt the currency changes which took place generally last fall should "play a beneficial role in helping to correct the imbalance in the trading relationship between North America and the rest of the world."

At the same time, he emphasized that currency changes of themselves are "no cure for basic problems of maladjustment."

"The conclusion... I reach is that no minister of finance in the foreseeable future will have an easier task than I have, namely, that of covering about \$2,400,000,000 of expenditure, said Mr. Abbott.

"In considering proposals for future major increases in our expenditures of a continuing nature, we must be ready to balance them with increased taxes. We can afford some modest increases in expenditures from year to year, or even some modest reductions in taxation, as our productivity and national income fluctuate."

"MUST BE REDUCED" But this divided of progress is gradual and modest in size in relation to the ambitious plans that are so much in the air these days. "What is important, I believe, is that we now realize clearly that there is no prospective surplus from which proposed new programs can be financed as much as we have in the past."

"If the expenditure is worthwhile it should be provided for by new or increased taxes or by reduction of some services or activities of lower priority."

"Imports Decline" Canadian imports from the United States have been declining for the last four months, despite the relaxation of import controls while exports have been increasing.

For those four months, an average balance of trade with the United States was valued at \$100,000,000 a year.

"If our overseas friends could get back their traditional share of our import market," he said, "they would be earning an additional \$200,000,000 a year with which to balance and eventually expand their consumption of Canadian products."

"CAN'T LAST FOREVER" Canada had taken special measures to help overseas suppliers to overcome difficulties. "But we cannot continue to do this indefinitely, should we convert temporary devices into permanent policies."

"It continues, however, to be our policy to encourage as large an increase as possible in our overseas imports, within the framework of our international obligations."

"Save!"

U.K.'s Bevin Calls Parley On Cold War

By EDWARD E. BOWEN

WASHINGTON, March 29.—(AP)—The United States has announced acceptance of a British proposal for a full-scale review by the western powers of the problems of the cold war.

Foreign Secretary Bevin extended an invitation for a meeting of the 12-power North Atlantic Council to be held in London May 8.

At the same time, it is understood, there are to be conferences of the big three western foreign ministers—Bevin, State Secretary Acheson of the United States and Foreign Minister Schuman of France.

France and the other countries represented in the council are expected to accept promptly. Sessions are to continue for two weeks. The place where it will be held has not yet been decided.

Meanwhile at the League chiefs of staff of 11 Atlantic Pact countries agreed unanimously on an integrated defense plan.

A communique issued after a one-day meeting of the military committee of the North Atlantic Treaty Organization said the plan will be submitted to defense ministers who convene there Saturday.

Scared Unionist Hides After Exposing Reds

Exclusive to the Bulletin

MONTREAL, March 29.—(UPI)—A self-styled "reformed Communist" and his wife fled in fear of their lives today after baring details of what they said was a Moscow-directed bid to control an AFL Textile Workers' Union.

Sam Baron, Canadian director of the competitive CIO United Textile Workers Union of America, said he, Aurelie Beauchamp and Beauchamp's wife had received several telephoned threats from unidentified persons since yesterday noon.

At that time they told reporters that AFL leaders were being harassed by Communists and that their leaders were present or former members of the Canadian Labor Progressive (Communist) party.

Baron said the Beauchamps had gone into hiding at a secluded spot "somewhere in Quebec province" at his suggestion.

He said Beauchamp and his wife

in his budget speech at the fall session following the general election last June, Mr. Abbott had estimated that he would end the current year with a surplus of about \$500,000,000. At that time he estimated revenues would total approximately \$2,545,000,000 and expenditures \$2,435,000,000.

During the current year \$486,000,000 obtained from various government transactions was used to reduce the outstanding public debt.

In the last two years, a fall in Canadian overseas export of about \$300,000,000 has been more than offset by an increase of \$500,000,000 in Canadian exports to the United States.

The government has been a net creditor of the United States since the last year. The Canadian import market during the past year.

employment, output and price levels in both Canada and United States will show no great change from 1949.

Canadian revenues remain "remarkably" buoyant despite the successive reductions in tax rates. A new measure of income tax government bonds will be sold to provide for redemption of the first series of government bonds which mature June 15, 1951, and an issue of three per cent bonds will be sold due to mature June 15, 1952.

Mr. Abbott reiterated earlier government statements that unemployment during winter months would be a serious problem. He said the government was working to reduce living operations through reducing investments.

Special post-war demobilization and transitional expenditures now were aimed "all behind us." There was a tapering off of payments to veterans. But these reductions were largely offset by increases in other government services required by economic conditions.

"In years when normal conditions are adverse, we must expect to have a large percentage of expenditures to assist in overcoming these economic difficulties and to maintain satisfactory levels of employment and income."

"In good years we can hope to reduce special expenditures and have budgetary revenues—but I doubt if the public or this house of commons will really wish government services or activities to be reduced in years of prosperity to the degree we have seen in recent years."

"We get a substantial improvement in the international situation when a reduction in defense costs that will materially lighten the burden on the budget is possible for 1950 is less certain, but I would like to remind honorable members that our markets on this side of the Atlantic have been expanded in recent years."

OTTAWA, March 29.—(

SALIENT POINTS OF LAST SURPLUS

OTTAWA, March 28.—(CP)—Highlights of the fiscal portion of Finance Minister Abbott's budget speech:

Estimated budgetary surplus of \$111,000,000 for the 1949-50 fiscal year, compared with \$595,000,000 for 1948-49.

Revenue for 1949-50 estimated at \$2,549,000,000, a decrease of \$222,800,000.

Expenditure estimated at \$2,437,500,000 an increase of \$261,600,000.

Estimated net debt at end of fiscal year \$11,665,000, a decrease of \$111,000,000.

Canada's reserves of gold and United States dollars totalled \$1,204,200,000 at March 25, compared with a low of \$461,000,000 in December, 1947, and with \$1,117,100,000 at Dec. 31, 1948.

Consensus of informed views about outlook for 1950 is that employment, output and price levels in both Canada and the United States will show no great change from 1949.

Volume of employment will increase moderately but it is possible that it may not catch up with growth in total supply.

Devaluation of the Canadian dollar has improved Canada's trading position.

The government is a little disappointed at the apparent inability of overseas countries to resume their traditional share of the Canadian import market.

Revenues From Main Sources Are Listed

OTTAWA, March 28.—(CP)—Following statement of revenue and expenditures for the three fiscal years ended March 31, 1948, in the financial White Paper table in the Commons last night by Finance Minister Abbott:

	1947-48	1948-49	1949-50
DIRECT TAXES—			
Individual Income Tax	\$ 639,829,000	\$ 762,364,000	\$ 811,300,000

Beer Stories Differ In North Death Trial

PEACE RIVER, March 29.—Evidence given yesterday, first day of the trial of Louis Nappio, Kathlamet district brewer, charged with murder of George Ward, 19, who had been consumed at a party prior to the shooting of Ward. Trial is being held in draughty Athabasca Hall, Peace River. Shortly after proceedings got underway Mr. Justice Hugh John McDonald, Edmonton, called a halt until the breezy stage was screened off.

Joseph Phillip Laboucan, who required some help from an interpreter, told of a gathering at the home of Robert Ghoussier in Peace River. He said there was beer at the party. He told of Nappio and him borrowing a rifle from his brother Edward, two days previous to the shooting. It was allegedly a bullet from the gun which killed Ward.

Ghoussier, under questioning, denied coming to the party. He said he had been a case of beer at his house but the party had not been near his house. His friends started to call about 1 a.m. Other witnesses indicated at least four cases of beer had been drunk at the gathering.

BEER EXCUSED FROM BOX.—Thirteen-year-old Charles Ghoussier was dismissed from the witness box when through the witness he said he did not know the 19-year-old victim.

JACOBY on Canasta

FOR BEGINNERS—7

In our last lesson we watched a hand of Canasta through the first play. West made that first play, and it is now North's turn to act. As it happens, North has a red (three) about his eleven cards. He doesn't need to look too closely at the rest of his cards, since his first step is to put that red three down on the table and draw the top card of the stock to replace it.

In doing so he has followed a general rule of Canasta. Whenever you find a red three in your hand you must put it down on the table at your first opportunity. If it is dealt to you, the time to put it down is as your first turn to play. If you draw a red three from the stock, you put it down then and there.

The red three has nothing to do with the play; they are simply bonus cards. You get a bonus of 100 points for each red three you put down by your side. If your side puts down all of the red threes in the pack, you get 800 points for those red threes.

Those bonuses are scored only if you manage to meld something or other before the hand ends. If the hand ends before you have melded, the red three count against you instead of for you. In other words, you would be minus 100 points for each red three, or minus 800 points for all four of them.

Now for one special word of warning on this point: If anybody tells you that you need a canasta to get credit for your three, don't listen to him. There is no such rule and there never has been such a rule. Get hundreds of questions a week on this point alone.

If you look hard enough, you will find people who follow all sorts of strange rules; but ninety-nine players out of a hundred stick to the official rules. These are the rules I discuss in this column.

FOR EXPERIENCED PLAYERS

At the beginning of a hand you must decide quickly and without seeming to be thinking about it, whether or not to take the discard pile. If it becomes obvious you are considering the discard, your opponent will know something important about the cards that you hold.

For example, you might be the dealer at the beginning of a game with these cards in your hand: A-K-J-10-4-6-4-5-2.

The other three players draw from the stock and make their discards without mulling. When your turn comes, there are four cards in the discard pile, of which the top card is a five.

Should you meld the aces and the five with your discards, taking the discard pile? Or should you pick up uncommitted and wait until the pile gets bigger?

If you meld, you will pick up four cards, meld seven, and discard one. After your discard you will have only seven cards in your hand.

If you were sure that you would get the discard pile at your next turn, you would naturally pass this pile up.

There are, however, no guarantees. If you decide to draw from the stock, either opponent may

LAST YEAR LEONARD McCaffrey, Star Hotel, an Edmonton steel worker, drew on a fat cigar to celebrate a federal budget which brought major income tax reductions. Today McCaffrey said last night's budget didn't have the makings of much for the little man except consolation that national debt was down.

Doug Abbott Dampens Former Happy Worker

"From cigars to rollings."

Edmonton's Mr. Gallup between the 1949 and the new federal budgets.

Police State Feared In B.C.

SPECIAL TO THE BULLETIN
VICTORIA, March 28.—(BUP)—CCF opposition leader Harold Winch charged yesterday that replacing provincial police with RCMP would lead to a police state in B.C.

He said if the RCMP takes over from B.C. police it would mean "the B.C. wanted 'centralization of police affairs in Canada'."

"Let the attorney general (Gordon Wimmer) give us more information as to the real purpose behind this plan and tell us exactly what it, whether or not to take the discard pile. If it becomes obvious you are considering the discard, your opponent will know something important about the cards that you hold."

Earlier attorney general Wimmer said "a great menace is looming in the north." He said that with the RCMP policing the province the federal government would be better equipped to combat "sabotage and subversive activities" within the province in the event of an air war.

Red Flying Disc Seen Over Berlin

BERLIN, March 28.—(Reuters)—Berlin astronomers reported seeing an intensely red object as bright as the North Star Monday night. The Wepten Berlin evening paper Abend reported today.

"The object moved on a zig-zag course in a westerly direction, sometimes standing still," the paper reported.

Make the pile before you get another chance at it. Most fine players would take the discard pile in this situation. They would be happier if the pile contained more than four cards. They would refuse the pile if it contained fewer than four cards.

GOVT MAY DISCONTINUE FREE MAILING

OTTAWA, March 28.—(CP)—Finance Minister Abbott indicated that the government is thinking of dropping the "franking" privileges by which government departments use the mails free.

In the fiscal portion of his 1950 budget speech, he noted that the post office is paying its own way, when wartime increases in letter rates are included, and said he hoped the growing cost of postal services could be covered by charges for these services.

"In due course," he went on, "I would hope we can arrange that it will charge other departments for mail services, and that it will be able to show a modest surplus on a commercial basis of accounting."

Senate OK's Bulk Selling

OTTAWA, March 29.—(CP)—The government bill to extend for a year its power to make bulk sales of surplus property already has passed the commons.

Senator A. K. Hughes, acting house leader, said it is the basis for extending public and defense contracts with Britain and it would "allow the government to negotiate future contracts if they were found advantageous."

It was doubted if the U.K. would have bought any Canadian products this year without this legislation, he said. Britain's labor government believed in bulk-buys in dealing with private sources of supply.

Senator T. A. Crerar (L.-Manitoba) said the legislation was originally conceived to help hard-hit war conditions. Now it appeared to be taking on a permanent character.

The final results would come from a return to private trading. He hoped the bill would be "decisively" interest next year.

Oil Companies Would Benefit By Tax Change

OTTAWA, March 29.—(CP)—Text of resolution to amend the income tax act to provide:

1. That for the 1949 and subsequent taxation years, the provision under which the 10 per cent tax rate on the first \$10,000 of income of a corporation applies only to one of several related companies be amended so that the test of relationship of companies shall be ownership of 70 per cent or more of all the issued common shares of capital stock of the corporation instead of mere control.

2. That in order to permit a private company to pay tax on undistributed income so that it may capitalize the undistributed income, the company may elect:

(a) To pay a tax of 15 per cent on undistributed income held by the corporation at the end of the 1949 taxation year, and

(b) To pay a tax of 15 per cent on undistributed income earned thereafter equal to the dividends distributed from time to time by the corporation during the period when the undistributed income was earned.

3. That for the 1949 and subsequent taxation years, there shall not be included in computing income amounts received in consideration for mining properties by prospectors who have prospecting rights or by persons who have financed prospectors to do so, other than persons who carry on business of dealing with the public in shares or securities or who distribute the shares or securities on a campaign to sell them to the public.

4. That special deductions from income to taxpayers whose principal business is the production, refining, or marketing of petroleum or petroleum products or the exploring or drilling for oil or natural gas or mining or exploring for minerals, be allowed for expenses incurred in the 1951 operations on the same basis as for expenses in the operations in the years 1949 to 1950.

5. That special deductions from income and taxes to taxpayers whose principal business is production, refining, or marketing of petroleum be allowed for expenses incurred in respect of deep-test oil wells in 1951 operations on the same basis as for similar expenses in 1950 operations.

6. That for the 1950 and subsequent taxation years section 73 of the Income Tax Act, which imposes a tax on income from oil royalty rights held by a trustee as if the trustee was a corporation, be amended.

7. That for the 1950 and subsequent taxation years section 18 of the Income Tax Act, under which leasehold or hire purchase or agreement relating to movable property are deemed to be agreements for sale and the payments to be purchase price and the purchaser to be the owner for purposes of depreciation, be extended to apply to all property except real or immovable property used in the business of farming.

8. That a non-resident be exempt from the 15 per cent tax on dividends received by non-residents in respect of dividends received by the company resident in Canada that derives substantially all of its income, directly or indirectly from the operation of

public utilities in the country in which the non-resident resides.

9. That individuals who were resident in Newfoundland on March 31, 1949, may for the purposes of computing tax payable by them, elect to report their actual income for the whole year 1949 instead of that for the period after March 31, 1949, which is now adjusted to an amount that would correspond to its income for the whole year for the purpose of computing the tax.

Age Pension To All Asked

OTTAWA, March 28.—(CP)—A slight pension of 80 per month should be made available to every Canadian without means test, Mr. Colwell, CCF leader said in a CBC broadcast last night.

He urged that the pension should be paid by the federal government through levies collected on the basis of ability to pay.

"Payment of social security must come out of our national production and income," Mr. Colwell said. "In other words, the only way of paying for social services is by producing and exchanging commodities among our people."

He said that the vast majority of Canadians "cannot provide for their families, clothes, shelter and education for their children and, at the same time, have enough for their old age."

Provision for their needs should come out of the general pool of national wealth.

Streptomycin Warning

GENEVA, March 29.—(Reuters)—The World Health Organization has issued a warning against unrestricted distribution and indiscriminate use of the new drug streptomycin in combating tuberculosis.

In a letter to all members of the organization, Canadian-born Dr. Brock Chisholm, its director-general, said:

1. In spite of reduced toxicity of the new form of streptomycin it must still be considered as dangerous.

2. Precise knowledge of the drug's action, especially in tuberculosis of the lungs, is still lacking.

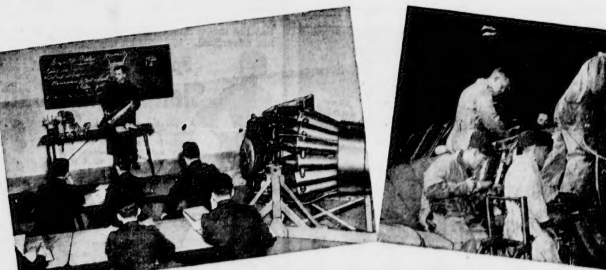

3. The public has focused attention on the drug to a degree out of all proportion to its value in the overall campaign against tuberculosis.

While the great success of streptomycin against tuberculosis is readily admitted, there are indications that the tuberculosis bacilli are becoming resistant to the drug, Dr. Chisholm added.

The first airplane to be built in the United States was that of Samuel Pierpont Langley, who tried unsuccessfully to fly it only nine days before the Wright brothers made their first flight.

LEARN TO FLY IN CIVIL AVIATION

Learn all about Airplanes in your spare time

in the R.C.A.F. Reserve...

Here is the opportunity to learn a valuable trade and fit yourself for advancement — the R.C.A.F. Reserve opens the door for young Canadians who have a real desire to get into the great field of modern aviation. And it enables them to do it in their spare time.

TRAINING—Men are given an organized and planned course of training in their choice, under skilled and experienced instructors. Courses include training in aero-engine mechanics, aircraft mechanics, radio and radio electronics, and administration.

REQUIREMENTS—The requirements are not difficult. You must be a Canadian citizen or have been for at least one year, less than 18 months, and be prepared to put whole-hearted effort and interest into Reserve work.

TIME—You spend one two-hour period a week at class and lectures and Saturday afternoons on actual operations at the airfield.

Here in the R.C.A.F. Reserve you will get a practical training that will be valuable in civilian or service life—acquire qualities of leadership—prepare yourself for advancement in your business and your community—meet a lot of fine fellows—and serve Canada by taking your place in our Reserve Defence Force.

The Budget Blues

Budget Blues, to the tune of My Bonnie Lies Over The Ocean.

You'll pay just as much income taxes,
You'll pay just as much for your smokes,
Yet Abbott rolls up a big surplus,
And cures not one back where he smokes.

George Raymond of 10735-123 street phoned to tell me he witnessed a brutal killing on 122 street, north of 115 avenue yesterday afternoon.

Mr. Raymond was cycling to work when a dog ran past him. Right behind was a black coupe.

Raymond said the car driver "chased" the dog for two blocks and then ran over the animal.

Driver of a truck mercifully put the dog to death.

Raymond tried hard to get the number of the coupe but couldn't make it out.

A good many Edmontonians will feel as if they have lost a fellow citizen in the death of Belg-Gen. Dale V. Gaffney. That's certainly the way I felt when Bert Millard telephoned me the news early yesterday.

General Gaffney was the newspaper reporter's friend. Any time I wanted to get to the bottom of a story during those war years, I just climbed a lot of red tape by telephoning General Gaffney.

He never let me down.

There have sounded for a gallant soldier and a very good friend.

Let's Have Peepholes

I like Mr. Adby but he's sure making a lot of people good and sore by putting up that high board fence along Jasper avenue where they're pulling down all those buildings.

Take a friendly hint Mr. Adby, and have one of your men drill at least three or four peepholes in that darned old fence. As it is, sidewalk superintendents are having to struggle through a lot of sticky Alberta gumbo over by the Mac in order to see what goes on.

Elegant Elsie says she would sure like to have Mr. Abbott at her budget.

Exclaimed Elsie: "I don't see how Mr. Abbott does it. He must get a lot more salary than I do to always finish the year with a surplus."

Moving Story

Chief Clerk Ted Van Dyke of the Macdonald hotel dreamed of having his own little vine-covered cottage for a good many years.

So he worked nights drawing plans and buying materials. When he was all set he went ahead and built a nice little home, mostly by himself, because skilled workers were hard to get.

Three weeks ago the Van Dykes proudly moved into their new South Side home. Next Thursday the Van Dykes are moving again.

Another Edmontonian fell in love with Mr. Van Dyke's home, so much so that he offered Ted a price he just couldn't turn down.

Van won't be out on the street. He bought another place out Highlands way.

Pilgrims' progress 10650: Card today from Pat Ashby says he's out on the desert and the cactus is blooming. Pat says things are awful dry in California.

This I can't understand, with all those cocktail bars.

A goodnight to all and especially to the millions who never budget for a surplus.

Average Man Sees Budget News as Dull

Edmontonians last night showed more interest in the hockey game than financing of their country.

Premier E. C. Manning led the parade when he said the budget "contained little of interest" to the general public.

With nothing in the budget to directly affect their pocket books other than the income tax, Edmontonians seemed to have the same reaction.

Saving of a fraction of a cent on soap and prospect of cheaper dairy, drinks and bigger ice cream cones seemed of little importance.

COMMENT

Here's what some people said:

James Kelias, insurance man: "I think Abbott's budget is wonderful. I don't understand it at all except where the tax comes off soap. That makes it a clean budget. I guess."

Mrs. Elizabeth Arkwright, visitor from Vancouver: "It's nice to know that soap will be cheaper. I wish we could cut soap."

Art Lilly, insurance adjuster: "The budget is somewhat of a disappointment to me. I think, with business, slackening off a bit, it was time to reduce the taxes on booklets and cigarettes, that people have to buy every day."

J. Logan Sutherland, investment dealer: "The fact that the income tax rates didn't come down shows that the cost of government is going to be high in order to pay for all the social services we feel we need."

George B. Henwood, K.C. lawyer: "I haven't the 'recited' idea what's in the budget. And I'm not interested anyway."

NO ELECTION

Herbert Turner, secretary, Trades and Labor Council: "I notice there haven't been any changes in taxes on personal income, liquor, tobacco or cigarettes so far as I know. Well, there should have been. We had reductions last year when there were no oil royalties on oil."

John A. Macdonald, K.C. lawyer: "I don't know what's in the budget, but I think it's a good one."

C. W. Austin, executive director, Alberta Teachers' Association: "Persons on salary were treated fairly. I don't think there's anything in the budget that would affect the income tax. I don't think there's anything in the budget that would affect the income tax. I don't think there's anything in the budget that would affect the income tax."

M. L. Van Vleet, director of education, University of Alberta: "As the father of four children, I was a little disappointed that no amendments were made to the income tax. I don't think there's anything in the budget that would affect the income tax. I don't think there's anything in the budget that would affect the income tax."

W. A. L. Long, executive director, Council of Social Agencies: "I'm glad to see the eight per cent sales tax has been dropped on purchases by orphanages and institutions for the aged and infirm. They are having great difficulty in financing their good work."

M. L. Van Vleet, director of education, University of Alberta: "As the father of four children, I was a little disappointed that no amendments were made to the income tax. I don't think there's anything in the budget that would affect the income tax. I don't think there's anything in the budget that would affect the income tax."

C. C. A. Allard, F.R.C.S.: "It's good to see the eight per cent sales tax has been dropped on purchases by orphanages and institutions for the aged and infirm. They are having great difficulty in financing their good work."

EYE-POPPING CONES

"HOLD MY GUM, Elsie, while I tie it into this one," was Jeanette Carlson's response to Bulletin Photographer Laddie Ponich's query about reaction to dropping of sales tax on ice cream. Jeanette, of 10829-95 street, dragged her attention from six-o'clocker to say they should reach even more eye-popping and tummy-stretching proportions.

And your ice cream bricks may be lating the drink must contain but less than three per cent sugar. The worst would not be affected by drop in prepared waffle cream cones, Edmonton manufacturers said, because it is not caused in the west at the present.

But the conversions on dairy products was no more drinkable to Canada as a whole.

Mr. Abbott said the tax was reduced as Ottawa revised requirements from dairy farmers to encourage consumption of ice cream and dairy drinks and lost revenue to the federal treasury would be about \$200,000 a year.

Mr. Hamilton said the "light easing" of rules in the standards of chocolate milk would be offset by the recent order stipulating the drink must contain but less than three per cent sugar.

The worst would not be affected by drop in prepared waffle cream cones, Edmonton manufacturers said, because it is not caused in the west at the present.

Parade to Honor World Champions

TAX CUT PUZZLING

Removal of eight percent sales tax on materials for sale use of bona fide public institutions, left Edmonton welfare organizations happy but puzzled today.

At an official of one Edmonton welfare organization summed it up. "It gives it a pretty good, but frankly I don't know we were paying sales tax."

In the budget report Ottawa incidentally said help in revenue "might be small."

At a civic dinner in honor of the team, and their wives or girlfriends.

PARADE PLAN

The parade is scheduled to leave Jasper and 10th street at 10:15 a.m. Thursday, move down Jasper to 10th street, then north in either market square or the park across from Chin station, final destination on where the ceremony of tribute to the world champions of figure skating is expected to close.

The parade divided 4:15 in morning a motion introduced by J. H. Hays, mayor, leader of the parade, to the government to consider reducing motor vehicle license plate fees by 50 per cent effective at the end of the month.

Herb Turner, secretary, Trades and Labor Council: "I notice there haven't been any changes in taxes on personal income, liquor, tobacco or cigarettes so far as I know. Well, there should have been. We had reductions last year when there were no oil royalties on oil."

John A. Macdonald, K.C. lawyer: "I don't know what's in the budget, but I think it's a good one."

C. W. Austin, executive director, Alberta Teachers' Association: "Persons on salary were treated fairly. I don't think there's anything in the budget that would affect the income tax. I don't think there's anything in the budget that would affect the income tax."

M. L. Van Vleet, director of education, University of Alberta: "As the father of four children, I was a little disappointed that no amendments were made to the income tax. Ceremony Of Tribute Plan Marks Mercury Homecoming

Edmonton Mercury will be welcomed home April 6 in front of world-champion fashion.

The official welcome committee has named named Art Potter chairmen and decided in.

Ask Mayor Pearson to declare next week Mercury Week.

Ask the school board to permit a holiday for school children Thursday morning.

It is a little more than a week since Jasper avenue, flanked by a succession of colorful.

A parade is scheduled to leave Jasper and 10th street at 10:15 a.m. Thursday, move down Jasper to 10th street, then north in either market square or the park across from Chin station, final destination on where the ceremony of tribute to the world champions of figure skating is expected to close.

The parade divided 4:15 in morning a motion introduced by J. H. Hays, mayor, leader of the parade, to the government to consider reducing motor vehicle license plate fees by 50 per cent effective at the end of the month.

Goodyear Opens Its New Branch

\$300,000 Structure Gives Better North Alberta Service

Gleaming, streamlined, \$300,000 Goodyear Rubber and Tire Co. branch office opens officially in Edmonton today, winning at "better and more rubber products for Northern Alberta."

Ceremonies opening the three-story, ultra-modern brick structure will commence at 3:00 p.m., to be followed by a reception on the main floor.

Miss Lynda Moffatt, daughter of city representative of Goodyear, will be R. C. Berthelink, national vice-president and general manager of the firm, Mayor Sid Parsons and other civic officials.

Since 1931, Goodyear products have been handled in Edmonton by Taylor and Pearson Ltd. The new plant with a warehouse capacity of 25,000 square feet, and modern air-conditioned offices, will serve northern Alberta.

IN MODERN STYLE

Located at 1835 105th street, the plant is in the modern architectural style and is finished in brown brick.

Offices and warehouses are designed not only for maximum efficiency in use of available space, but also with an eye to the comfort of the 20 employees.

On the lower floor are incorporated an employees' coffee room, shower room and lavatories.

Acoustic ceilings have been installed and the extra large, modern designed windows provide a maximum of light. Floors are covered with blue, sound-deadening rubber tile, manufactured by Goodyear.

Glass and chrome door lead the customer into brightly lighted offices, lighted through fluorescent lighting.

Stored goods are protected by the latest automatic springing system and the building is earthquake equipped.

GROWTH IN MARKET

Edmonton branch manager, J. R. Biddell, who has served over 20 years with Goodyear, said the new plant was necessary because of the unprecedented growth of the industry and increased tire usage in northern Alberta.

He said the Goodyear company believes that with new, enlarged facilities it is now in a position to supply the growing demand for Goodyear products in this important territory.

Abbott Warns Canada Against Regional Dole

OTTAWA, March 29.—(CP)—Finance Minister Abbott told the Commons last night in his budget speech that the federal government "cannot and should not" attempt to assume responsibility for regional problems of unemployment.

"To his mind, he said, the federal government's role is to provide the framework for the development of the country."

1. "Through a fiscal and general policy, it should try to create a 'favorable climate' for healthy economic expansion and development."

2. "It should have 'careful regard' in planning its own operations for the best timing and the best placing of its capital and development expenditure."

3. "It should recognize 'a special responsibility' for the promotion and development of basic primary industries and other industries of national significance."

4. "It should be ready to cooperate actively with provincial governments, and through them with municipal governments in meeting regional problems that require nation-wide economic repercussions."

OUTLOOK DIFFERS

There "had been differences" which had led the general public to overlook, or at least to underestimate, the "very large amount" of practical day-to-day cooperation between the federal and provincial governments. These actions:

Siphon Whisky Through Window

GLASGOW, Scotland, March 28.—(CP)—An ingenious method of siphoning Scotch whisky from Mackay's distilleries was disclosed in court.

Prosecutor A. S. McNeil said four men siphoned whisky through the windows of a warehouse, inserted a long pipe with a siphon on the end and distilled the juice of a whisky barrel.

A piece of rubber tubing was fixed to the stick and placed in the bung-hole. The whisky then was siphoned into milk cans.

The thieves, William Myron, Edna Sutherland, John Ross Brown and John William Wilson, drew prison terms ranging from four to 18 months.

Lilyb Arrives, Philip Is Away

VALETTA, Malta, March 28.—(Reuters)—Princess Elizabeth arrived here yesterday to visit her husband, Prince Philip, now serving with the Mediterranean fleet. Her husband did not meet her. He is, as yet, but due back Friday when the fleet returns to Malta from its spring cruise.

ARTIST FINDS TORONTO DULL AS ART THEME

MONTREAL, March 28.—(CP)—Miss Clarice Cliff, whose pottery designs have made her a member of the Royal College of Art in England, said today she plans designs on the last of China pottery. She has just completed a Canadian tour.

A Canadian design was used, colorful autumn leaves. Another will have Montreal street scenes.

Asked what other Canadian cities she was considering for her designs, Miss Cliff said:

"Well, I was considering Toronto. But Toronto is so difficult to make interesting."

Order Made For Spy File

WASHINGTON, March 28.—(AP)—President Truman refused yesterday to authorize federal loyalty files to congress, and a senate committee investigating charges of Communism in the state department promptly issued subpoenas for the records.

Senator Millard Tydings (Dem. Md.) told reporters he had signed subpoenas for the complete files of the State Department, Federal Bureau of Investigation and Civil Service Commission.

Truman made his announcement within 20 minutes after Truman, on vacation in Key West, Fla., disclosed his decision to reject a formal request of the Tydings subcommittee for access to the secret government files.

In view of Truman's stand, it is considered a foregone conclusion that subordinate officials will decline to obey the subpoenas.

Douk Leaflets On Church Door List Complaints

TRAIL, B.C., March 29.—(CP)—Crude typewritten and mimeographed leaflets appeared on church doors and business establishments here, overnight outlining reasons the Sons of Freedom Doukhobors want to leave Canada.

The leaflets were unsigned but bore the statement: "We are members of the spiritual community of Christ, Sons of Freedom."

In Grand Forks, N.C., yesterday 12 Sons of Freedom Doukhobors were committed to stand trial on charges arising from burnings and dynamiting in this interior British Columbia district. Bail for the 12 totaled \$15,000.

Another was dismissed as preliminary hearing of the 12 radical members of the sect concluded. No date for the trial was set.

CPR Dining Car Given 'New Look'

WINNIPEG, March 29.—A modernized diner-car with red plastic windows, yellow leather graining halfway up the walls and a soft blue ceiling drew approving comments here from CNR people when it went on show after its first test run.

It is one of five such "new look" cars now marked for Western Hemisphere travel between Medicine Hat and Vancouver on transcontinental trains.

There are two cars in this red-carbon order. The other five are marked down for the Toronto-Winnipeg run in the east.

Spacious Warehouse Has Tires For Anything

"Big ones, tall ones, some as big as . . ." well, name your own size—in tires, anyway—because Goodyear's new warehouse at 10355 105th street, has them from \$1,500 giants down to 8.450 midgies.

In fact the 35,000 square feet of storage space in the new Edmonton branch of the Goodyear Tire and Rubber Co., of Canada, Ltd., has dozens of tires to answer the specific needs of all industries.

They have a particularly large range of tires required by farmers. There, too, are aircraft tires, industrial conveyor belting, 1,200-pound rotary oil well drill hose, section hose, garden hose, air foot padding for cushions, etc., and a complete range of the well-known Goodyear batteries.

Plane Misses Logs In Landing

SQUILAX, B.C., March 28.—(CP)—Police said today that a small, two-engine plane landed on Squilax lake near here today. Eight passengers were aboard.

The plane was carrying hockey fans from Trail to Kamloops when it was forced down by bad weather.

Reds' Blackmail Aids Bond Sales

HONG KONG, March 28.—(BUP)—Chinese Communists are forcing American and British firms as well as Chinese individuals and business concerns to buy large blocks of people's government bonds. It was reported today.

In Canton alone, one report said, 10 American and British firms are being pressed to buy \$200,000 worth of bonds under threat of possible arrest of company personnel.

Merger Hinted For Red Cross

OTTAWA, March 29.—(CP)—Senator Gray Turgeon (L.—British Columbia) suggested yesterday the Senate could help bring the Canadian Red Cross society and St. John's Ambulance Association closer together.

He pointed a bill to amend the Red Cross Society Act to allow for the society's expansion.

Senator Turgeon said the Red Cross and St. John's Ambulance were earnestly trying to work together.

He felt "the Senate will be able to play a prominent part in helping bring the two organizations together on proper terms." He was sure they could reach agreement that would be fair and helpful to both.

GOODYEAR opens Edmonton branch to serve growing Northern Alberta!

Alberta's Industries Are Growing With Healthful, Youthful Vigor.

As industry grows, so does the need for rubber products . . . tires for cars, trucks, tractors and implements that help harvest crops from the rich soil . . . mechanical rubber goods to help the vast, fast-growing oil industry run with smooth efficiency.

This increasing demand for rubber products has made it necessary for Goodyear to enlarge facilities for serving Northern Alberta.

With the opening of this large new, fully staffed and stocked Edmonton branch, Goodyear can now serve this growing area better, faster, more completely than ever before.

It is with great pride that Goodyear grows with Northern Alberta . . . serving everyone from automobile owner to industrial operator with products bearing the famous Goodyear name.

Goodyear is pleased to have Mr. J. L. (Jim) Riddell as Manager of the Edmonton Branch. Mr. Riddell is well known throughout Northern Alberta. His wide experience, his wide practical knowledge in all branches of the rubber industry assure Goodyear customers of the best attention to their varied needs.

To assist Mr. Riddell, Mr. J. A. (Jack) Douglas has been appointed as Assistant Manager. Mr. Douglas was formerly assistant to the manager of the Regina Branch and was transferred to Edmonton in January of this year. With years of experience in branch operations, Mr. Douglas is fully qualified to assist in the efficient handling of branch office activities in Edmonton.

Life is Often Hard For Big Sled-Dogs

Before white men came to Canada the dog was the most important animal in primitive transportation. He was used for pulling the loads of provisions and furs. A travois was made by harnessing two long poles on either side of a dog and letting them drag behind him. Skins were stretched between the poles and supplies were piled on top of the primitive vehicle.

When the Spaniards came to Mexico they brought horses which thrived in the new country and later learned to ride on horseback. The horse was a much stronger animal than the dog and was favored by most Indians. They could use them for packing, pulling travois or riding.

MODERN DOGS

In this modern age, in spite of many changes due to increasing use of airplanes and automobiles, the dog is still a great help to Indians and white people of the north during the winter months.

With a few exceptions the life of a trail-dog is very hard. Poor food and bad treatment are common practices among many isolated drivers. Just in spite of this, the dogs always seem to remain faithful to their masters.

Out on the open tundras of the Arctic many different types of sleds are used. In the forest areas, however, there is usually a standard sled or toboggan used for the narrow, winding trails. It is also necessary for the drivers to wear snowshoes.

PACKING SUPPLIES

When a toboggan is being loaded, a heavy canvas is laid across it and lashed into place. This is necessary on the trails where the toboggan may overturn at any steep curve.

The teams are usually made up of three to five dogs which can haul 300 to 400 pounds over the average bush trail. Whenever possible, they follow frozen streams, draining where open water is found. When a new path must be

Uncle Wiggly's Bedtime Story

While Uncle Wiggly was hopping to the sky and you may follow down the road from his sky auto, to look for Teenie the turtle, that funny little chap was having a grand time. All around him stood many other turtles and many frogs. They had come from the bushes and mud puddles beside the road in Early Spring Land.

Uncle Wiggly's sky auto was stalled in Early Spring Land because of four flat tires.

"Take a good look at Teenie the turtle!" cried Jumpie the big frog. "I see a turtle like one of us!" answered a large turtle thrusting his head and neck out from between his shells.

"Yes, but do you see the beautiful picture painted on his back?" asked Jumpie. "The picture was painted by Buster and Hunty in Uncle Wiggly's sky auto. And in one jump back there with Teenie and have Hunty and Buster paint a picture on my back."

"That's just what I am going to do!" cried a frog whose voice was not quite as loud nor as booming as was Jumpie's. "Come on, my froggie friends! We'll parade down to Uncle Wiggly's sky auto and have Buster and Hunty paint pictures on all our backs."

"Will they do it, Teenie?" asked a turtle whose back shell was all green, being covered with duckweed where he had been swimming in a puddle. "Will Hunty and Buster paint pictures on our backs?"

"I think so," answered Teenie. "Buster and Hunty are very kind little rabbits. I am now going back to the sky auto and you may follow me down the road and ask Hunty to look for Teenie the turtle, that funny little chap was having a grand time. All around him stood many other turtles and many frogs. They had come from the bushes and mud puddles beside the road in Early Spring Land."

"Come on!" cried Jumpie the frog.

So the strange parade started down the road of Early Spring Land toward the place where Uncle Wiggly's sky auto was parked under some trees. The four tires of the sky auto were still flat.

"But you should let me and the other turtles get there first!" said Teenie to the frogs. "Because you don't know Buster and Hunty, and I do. I will introduce you to the rabbits."

"But you turtles are so slow!" complained Jumpie. "We frogs can't help jumping ahead of you."

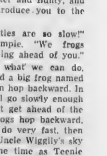

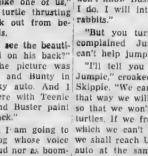

"I'll tell you what we can do, Jumpie," cried a big frog named Skipper. "We can hop backward. In that way we will go slowly enough so that we won't be ahead of the turtles. If we frogs hop backward, which we can't do very fast, then we shall reach Uncle Wiggly's sky auto at the same time as Teenie and his friends."

"What I am really seeing a very strange parade!" said the rabbit gentleman to himself. "A parade of frogs hopping backward and turtles crawling forward, led by Teenie himself. What does this mean?"

Just then Uncle Wiggly heard the stent of a police squad car. "I'll tell you more about it tomorrow! If the first April shower will bring a May flower for the raincoat to wear in its buttonhole when it goes to call on the umbrellas."

Newcomer to the Tawasi Club is something of a surprise. It is a young fellow of 11432-56 street, in the year of his old day. Happy birthday, Cleve.

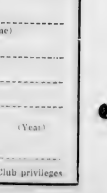

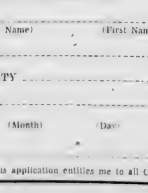

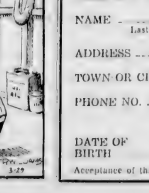

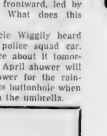

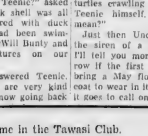

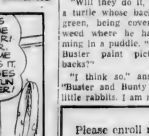

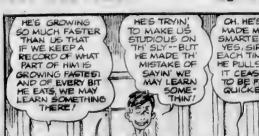

Article On Health Wins Award

Max Glynne Martland, in charge of staff health services at University Hospital, has been given an award by the Canadian Hospital Journal for one of the two best articles submitted during the past year. The hospital announced today that Mr. Martland's article, "Health Services for the Hospital Staff," was based on his experience supervising services at University Hospital. The hospital is recognized as having one of the best staff health services on the continent. Her second prize was a \$40 cash award.
